

## IFHE Council Meeting No. 49 Den Haag, The Netherlands Japan Report

- The HEAJ accepted an invitation to attend the ISHEC 2016 (China (Shanghai) International Seminar on Healthcare Environment Control) held on the 16 and 17 of June 2016.  
During the seminar, a lecture was delivered on the HEAJ Hospital Design Guidelines (BCP Volume) HEAS-05-2014.

- There was the following announcement of new working team to formulate new ventilation standards for hospitals:

A revision of the ventilation systems and ventilation frequencies for hospitals, including a review of documentation, measured values, experiments and simulations etc., is being carried out to confirm what factors, such as temperature, humidity, air purity, odors etc. should determine the ventilation in various spaces within hospitals, with the aim of enacting appropriate standards .

The results will be reflected in revisions to the "Hospital Facilities Design Guidelines (Air Conditioning Supplement)"
